

Dental Floss Sticks

Gentle Cleaning Between Teeth. · SKU KD-OC-FS

Single-use dental floss picks in children's and youth series — rounded edge-free heads, slender handles and cartoon shapes for children; 50-piece boxes, buckets, bamboo-charcoal and fresh-mint versions and 100-piece packs for older users.

Kangde Med floss sticks are produced in the same controlled environment as our medical products. The children's series uses a rounded head without edges and a slender cartoon-style handle so that young children can floss safely; the youth series offers larger packs and bamboo-charcoal or fresh-mint floss.

SUPER DEER

Specifications

Series	Children's floss stick series · Youth floss stick series
Packing Options	50 pcs box · 50 pcs bucket · 50 pcs bamboo-charcoal box · 50 pcs fresh-mint bucket · 100 pcs pack
Head	Round, without edges — safe for young children
Handle	Slender, cartoon-shaped (children) or ergonomic (youth)
Customisation	Colour, floss type, packaging and brand printing to order

Features

Rounded, edge-free head · Slender easy-grip handle · Box, bucket or pack · Private label available · Clean-room production

How to use

- Align the floss with the gap between the teeth and gently move it left and right, sliding it slowly into the interdental space.
- Hug the floss against one side of the adjacent tooth and pull gently to clean, then repeat on the other side.
- Use a fresh stick for each session; discard after use.

Applications

Dental clinics, pharmacies, retail distributors and private-label oral-care brands.
